

## About TracPlus

TracPlus is a trusted tracking provider, offering real-time tracking, reporting and messaging for helicopters and fixed wing aircraft, as well as vehicles, vessels and personnel. TracPlus solutions can be installed seamlessly across desktop, web and mobile devices, and our open hardware ecosystem means you can use the hardware that works best for your organization.

TracPlus provides total fleet operational awareness ensuring that your team is accounted for, regardless of their location. Our dual-mode sat/cell tracking devices mean you only pay for tracking when you leave cellular range. Send and receive text messages and emails, from wherever you are in the world. Obtain accurate airborne and engine run times for maintenance and billing, as well as high definition flight paths for regulatory, contract and compliance reporting.

TracPlus has a dedicated sales and support team for North America to support you to find the best solution to your business.
